

*Residence of Margaret H. Calvert  
1809 Tenth Avenue North*

HOMES & GARDENS OF THE PACIFIC COAST.  
SEATTLE 1913

**I**N the above view is shown another example of the latest style of American architecture. ¶ The overhanging eaves and horizontal belt courses being in striking contrast to the upright half timber construction used in so many houses in this country. ¶ The dominant feature of this home is comfort, it being almost perfect in arrangement. ¶ The design is by Mr. Charles Haynes.
