## **HISTORIC CEMETERY PRESERVATION GRANT PROGRAM**

The Department of Archaeology & Historic Preservation, together with the Washington Trust for Historic Preservation and the Historic Cemetery Advisory Committee, are pleased to announce the third round of grant funds through the Historic Cemetery Preservation Capital Grant Program. Established in 2016 with the enactment of House Bill 2637, the capital grant program is intended to benefit the public by preserving outstanding examples of the state's historical heritage, enabling historic cemeteries to continue to serve their communities, and honoring the military veterans buried within them.

The Historic Cemetery Preservation Capital Grant Program is a program of the Washington State Department of Archaeology & Historic Preservation (DAHP). Management of the grant portion of the program is provided by the Washington Trust for Historic Preservation under contract with DAHP. The Washington Trust for Historic Preservation is Washington's only statewide non-profit advocacy organization dedicated to historic preservation.

Approximately \$300,000 in grant funds is available in the 2021-2023 Biennium with individual awards up to \$50,000.

### **ELIGIBILITY**

**Cemeteries:** Any cemetery containing 5 or more burials, with at least one burial more than 50 years old, is eligible.

**Applicants:** Eligible applicants include cemetery property owners, nonprofit organizations, and local governments. Private property owners may apply provided they have a non-profit or local government fiscal sponsor or will allow reasonable public access through a 10 year easement.

**Projects and Funding:** Funds may be requested for construction, renovation, or rehabilitation projects that preserve the historic character, features, and materials of the cemetery, or that maintain or improve the functions of the cemetery.

1. Projects must be considered capital projects that make significant, long-term improvements to existing facilities. Projects typically fall into one of the following categories: protection and security; restoration and preservation; and interpretative displays. Eligible projects may include, but aren't limited to: security fencing or lighting; skilled monument repair; conservation of historic elements such as fencing, curbs, markers, etc.; interpretive signage; and landscape restoration. The purchase of equipment for capital improvements or to reduce overall maintenance costs may also be eligible.
2. Funding is provided on a reimbursement basis only. Project expenditures must begin and end within the grant cycle (completed by June 30, 2023).
3. All labor funded by the grant must be performed by a qualified contractor, with an estimate submitted with your project budget.
4. Grant requests of any amount, up to \$50,000, will be considered.

## **EVALUATION CRITERIA**

The following criteria will be used in determining grant awards:

- relative historic significance of the cemetery;
- relative percentage of military burials in the cemetery;
- project impact on future maintenance and operation costs and provisions provided for long-term preservation;
- urgency of the project;
- public access of the cemetery; and
- extent to which the project leverages community and volunteer support.

## **PUBLIC BENEFIT REQUIREMENT**

One of the primary purposes of grant funding through the Historic Cemetery Preservation Grant Program is to enable historic cemeteries to continue to serve their communities and honor military veterans throughout Washington. The following are requirements for applicants receiving grant funding:

- Public access to the cemetery must be provided under reasonable terms and circumstances; for example, a posted sign must provide hours of access or a telephone number to arrange a scheduled visit.
