Log into SAW with the same username and password you have been using.

If you do not have multifactor authentication set up on your SAW account you will get a prompt to enable multifactor authentication.

Follow the prompts from SAW to set up Multifactor Authentication on your account. You will not be able to log into WISAARD until you complete the steps.

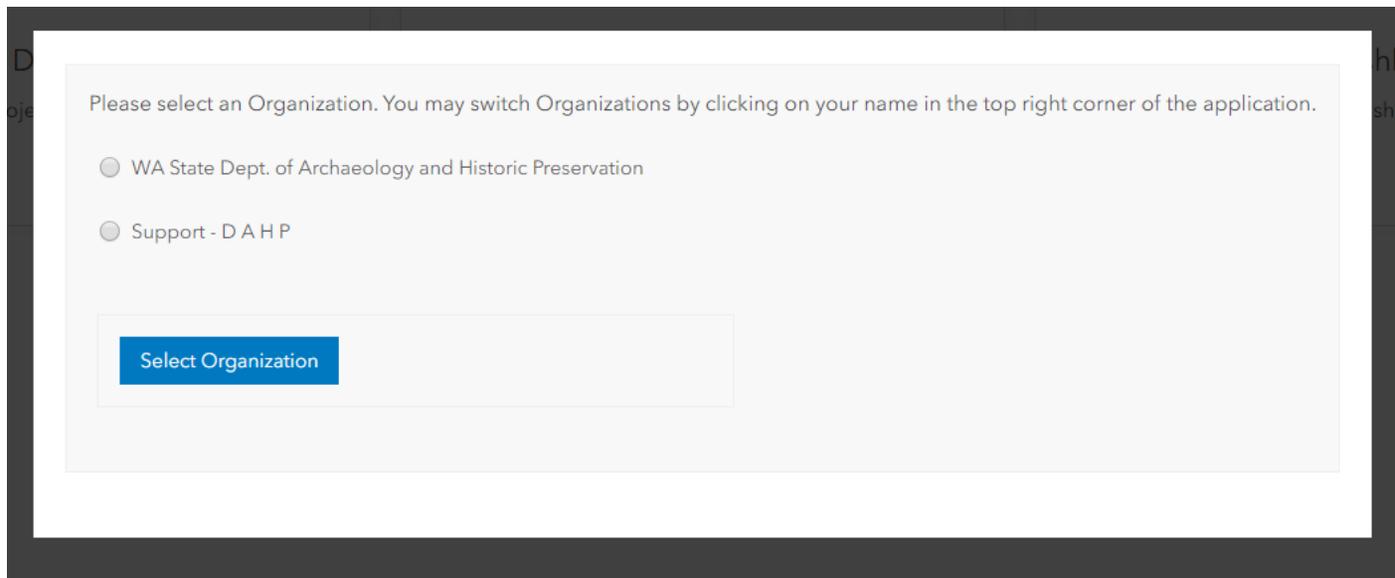

The screenshot shows a green banner at the top with the Seal of the State of Washington. Below the seal, the text reads "This service requires MFA." To the right of the banner are four buttons: "HOME", "TIPS ON", "GET HELP", and "LOGOUT". Below the banner, the main content area has the heading "ADD MFA TO YOUR ACCOUNT" and a paragraph: "We will collect additional emails and phone numbers where we can send codes to verify you in the future." At the bottom of this section is a green button labeled "BEGIN".

You now should be redirected to the new application.

If you have a single organization it should launch you directly into the application.

If you have multiple organizations it will ask you to choose which organization you would like to use in your session. It will ask you this each time you log in to a new session.

The screenshot shows a dialog box with a light gray background. At the top, there is a text instruction: "Please select an Organization. You may switch Organizations by clicking on your name in the top right corner of the application." Below this text are two radio button options. The first option is "WA State Dept. of Archaeology and Historic Preservation" and the second is "Support - D A H P". At the bottom of the dialog box, there is a blue button with the text "Select Organization".

Please select an Organization. You may switch Organizations by clicking on your name in the top right corner of the application.
