

Requesting Access to the Washington Information System for Architectural and Archaeological Records Data (WISAARD) Service

The screenshot displays the WISAARD web application interface. At the top, the logo reads "WISAARD Washington Information System for Architectural & Archaeological Records Data". To the right of the search bar are buttons for "Basemaps", "Print", "Select Data", "Draw Graphics", and "Measure". The main area is a map of Washington state with various data layers overlaid, including county boundaries, city boundaries, and various land use and historical data. A legend panel on the right side of the map lists the following layers:

 - Certified Local Governments
 - Township Range
 - Tribal Layers
 - Environmental
 - State & Federal Boundaries
 - County Parcels
 - Historic Maps
- Predictive Model
- GLOs (1880s - Early 1900s)

At the bottom left of the map, there is a scale bar showing 0, 30, and 60 miles. The text "2.1.2.11345 Server:SSVDBOLYDAHP3, DB-DAHP" is visible at the bottom left of the interface.
